BSA solution (10%), (50 ml)

This BSA Solution (10%) is specially designed to create the Blocking Buffer and Assay Buffer in IMMUNOSET® products. Each bottle is sufficient for use with 5x96 wells microtiter plates if following the instructions in our IMMUNOSET® protocol. The BSA Solution may be used for any other assay development needs. Additional assay development reagents are available as companion products to our IMMUNOSET® products.
