## **Handling & Storage**

**Use/Stability** As indicated on product label or CoA when stored as recommended.

**Handling** Avoid freeze/thaw cycles. After reconstitution, prepare aliquotes and store at -80°C.

Long Term Storage -80°C

Shipping Dry Ice

## Regulatory Status RUO - Research Use Only

## **Product Details**

**Application Notes**Useful for inhibitor screening, kinetic studies, and cleavage

of substrates in vitro or in tissue culture.

**Formulation** Lyophilized with phosphate buffer.

Purity ≥95% (SDS-PAGE)

**Reconstitution** Reconstitute just before first use with original volume of

water.

Source Isolated from human liver.

UniProt ID P07339
