Handling & Storage

Use/Stability As indicated on product label or CoA when stored as recommended. For long term

storage, aliquot product into individual tubes and freeze at -20 or -70°C. Defrost samples as needed and store remainder at 4°C for stability up to several days. Avoid

repeated freeze/defrost cycles.

Short Term Storage +4°C

Long Term Storage -20°C

Shipping Blue Ice

Regulatory Status RUO - Research Use Only

Product Details

Application ELISA, WB

Crossreactivity Does not cross-react with human, horse, goat, sheep,

bovine, guinea pig, hamster, rat, rabbit, or chicken

proteins.

Formulation Liquid. In 20 mM potassium phosphate, pH 7.2, containing

150mM sodium chloride, 0.01% gentamicin, and 1% BSA

as stabilizer.

Host Goat

Immunogen Mouse IgG.

Purity Detail Affinity purified.

Recommendation Dilutions/Conditions Western Blot (secondary Ab detection, 1:5,000)Suggested

dilutions/conditions may not be available for all applications. Optimal conditions must be determined

individually for each application.

Species Reactivity Mouse

Specificity Recognizes mouse IgG heavy and light chains (whole

molecule).
